

“Unlike other pregnancy centers, after my first visit with my counselor, I knew I had found someone who would stay by my side, someone who cared about me and the future of my baby.”

— Lora

*We Listen.
You Decide.
We Help.*

Options Counseling

Making a decision about an unplanned pregnancy is probably the most difficult decision you will ever make. Trying to figure out everything by yourself can be overwhelming. **You don't have to go through this alone.**

At Lutheran Family Services, we are here to help you. You can talk to an experienced, professional counselor who will be by your side to help sort out your thoughts and to provide the information you need to make an informed decision. We will help to explore your feelings about the pregnancy, tell significant others, and examine your options. Ultimately, we hope that you will feel educated on all of your options, and comfortable and confident in the decision that you feel is best for you and your child.

With your counselor's help...

You will feel empowered to make the decision that is right for you. You will be surrounded by people who can provide answers, comfort, and most of all, hope.

Your counselor is always available to meet with you in the office, the community, or at your home. Referral services and pregnancy related financial assistance may also be available.

Parenting Support

Many of our clients choose the option of parenting their baby. LFS provides support to those who decide to parent by assisting them in creating a well-thought out parenting plan. Counselors at LFS help expectant parents prepare for the birth of the child, learn about caring for an infant, secure needed housing and arrange for child care. Many resources in the community are also available for single, young, or first-time parents. We are dedicated to assisting our clients in becoming as successful as possible in their new parenting roles.

Open Adoption

Some parents choose to plan an adoption for their child. Lutheran Family Services honors open adoption and believes in all of the possibilities that it provides. If you decide that adoption is best for you and your child, your counselor will be there to provide support and assistance every step of the way.

Open adoption has four main characteristics:

- Birth parents select the adoptive family
- Birth and adoptive families are in face-to-face personal contact
- Both families exchange full identifying information
- Both families establish and maintain an ongoing relationship
